Dream Bigger

Technologies that you are aware of:

Languages: Java, JavaScript, Python, C

Frontend: HTML, CSS, React, Redux, Bootstrap

Backend: Spring Framework, Quarkus, Flask

Databases: Microsoft SQL Server, PostgreSQL, MongoDB

Areas of interest:

Web Development. Back-end Development.

Your Experiences

Summary of experiences:

I am an ambitious Back-end Developer with a strong foundation in Java and Spring Boot, specializing in crafting robust and scalable applications. My journey in computer science led me to pursue a degree at UNIFG, where I delved into the intricacies of the field. During my academic tenure, I cultivated a passion for problem-solving, which has been a driving force in my hands-on experience with complex integrations and adept management with a passion for problem-solving, I have honed my skills through hands-on experience in intricate integrations and proficient database management, encompassing Microsoft SQL Server and PostgreSQL. My collaborative approach is evident in effective teamwork with multidisciplinary units, and I ensure streamlined

development environments through adept use of Git and GitHub. Proficient in DevOps practices, I leverage Docker and Kubernetes for service orchestration, contributing to efficient deployment processes. Committed to continuous learning, I actively engage with computer networks and stay abreast of industry advancements.

Experiences in the job market

Company: Compass UOL

Segment: Technology

position in the company: Intern Scholarship

Start and end date: June 19, 2023 to November 15, 2023

Activities/stacks and technologies used: I have engaged in a comprehensive training program covering Agile methodologies, Git, Cybersecurity, Java, AWS Console, SQL, NoSQL, Containers, AWS CLI, Spring Boot, APIs, Application Testing, Microservices, RabbitMQ, Spring Security, Blog App Development, AWS Cloud Practitioner, AWS accreditations, AWS Security, and earned badges in EBS and Cloud Essentials. Equipped with this diverse skill set, I am ready to tackle advanced challenges in both development and cloud technologies.

Technologies: AWS, Docker, Git, Github, Spring Framework, PostgreSQL, MySQL, MongoDB, Maven, Java, RabbitMQ, Junit, Mockito, Scrum, Kanban

Academic education:

- Computer Science – UNIFG (2020-2023)

Languages:

- English
- Portuguese (Brazil)

Certifications / Accreditations:

AWS Knowledge: Cloud Essentials
AWS Partner: Accreditation (Technical)
AWS Partner: Accreditation (Sales)
AWS Partner: Cloud Economics Accreditation
AWS Cloud Practitioner Certified
CCNA: Introduction to Networks (Cisco)
Cybersecurity Essentials (Cisco)
CyberOps Associate (Cisco)
